**VOTE DIETER REITER AND SPD
ON MARCH 15, 2020!**

There are 680,000 people with a migrant background or a foreign passport living in Munich – making up 44 per cent of the population. Many come to Munich because of the strong economic situation and find work and a new home here. The Social Democratic Party, SPD, has turned Munich into a strong and successful business location that provides a multitude of jobs. We will continue to fight for this.

At the same time, Munich is an open and tolerant city. Munich supports many initiatives and organisations that fight discrimination and hatred whilst ensuring that people of all backgrounds can live together peacefully. We want everybody to feel welcome and we want to ensure that anybody seeking refuge here will be able to make Munich their home.

We, the SPD, continue to fight for affordable housing for everybody, for childcare that's free of charge and for better working conditions. At the same time, we provide plenty of opportunities for everybody to keep their culture alive. We are proud that people of so many nationalities call Munich their home. To ensure that things stay this way, vote for Dieter Reiter and the SPD München in the local elections on March 15.
